

San Luis Potosí, August 5th, 2016

Ing. Edwin Miguel Munguia
Company Director
LIEMSA S.A. DE C.V.
42 poniente 1311 Col. Santa María
Puebla, México.

Dear Mr. Edwin Miguel Munguia:

On behalf of the BMW Group, we would like to express our most sincere gratitude to you and your employees for being an essential part of the "300 Hectare Platform in Logisitk Park III located in Villa de Reyes, San Luis Potosi" Project for the construction of the new BMW Plant in Mexico.

Likewise, we would like to acknowledge the effort, commitment, quality and above else, the professionalism, that LIEMSA demonstrated in each of the phases of the said project, which has the highest quality standards in the world.

The project was developed between the group of contractors and the Quality Control Laboratory LIEMSA. Having LIEMSA in charge of quality control, supervision, planning and execution of special quality tests based on the German DIN norms as well as the Mexican norms allowed us to reach our objective as well as exceeding the expectations that we had at the beginning of this grand project. We are delighted to reiterate our gratefulness and acknowledge LIEMSA for its excellent work during June 2015 to July 2016.

Sincerely,

Karl Schmid
